

May 31, 2026

To Whom It May Concern,

This letter is to confirm that Mr. Zhihua Wang worked as an online research assistant for Morobe Development Foundation, Inc. (MDF).

Mr. Zhihua Wang, registered under User ID: 7241880, successfully secured an assignment titled "Research Support in Analysing Mangrove Responses to Climate Change" via the United Nations Volunteers website (<https://www.unv.org/>). This assignment, which is in line with the UN's Sustainable Development Goal 14. Life below water, is facilitated by the United Nations Volunteers programme, an initiative administered by the United Nations Development Programme (UNDP).

Recognizing the excellence of his contributions, MDF accepted him as an online intern in our organisation from January 26, 2026, to April 26, 2026. His main role was to write a literature review around the above-mentioned assignment and goals, and his excellent results provided professional and informative suggestions for our research.

As the project manager at MDF, I wholeheartedly recommend him for the related project he chooses to pursue, confident in the knowledge that he will invariably bring a level of excellence and profound commitment.

Sincerely,

A handwritten signature in blue ink, appearing to read "Willie Doaemo".

Willie Doaemo
Project Manager
